

Department of Psychology

Undergraduate Programs 2026-2027

Our Mission:

*Promote student personal and professional success by
providing the best possible academic experience
in and out of the classroom.*

MTSU prohibits discrimination based on sex, race, color, national origin, disability, or other protected categories.
Report concerns to the Title VI/IX Coordinator. See the full policy at crc.mtsu.edu.
(last updated August 19, 2026)

Dear Student,

Thank you for your interest in our undergraduate psychology programs here at Middle Tennessee State University. The enclosed information presents you with specific information about the majors and minors that are available in psychology, as well as suggested plans for meeting your degree requirements. You can find useful information about our programs, the faculty, advising, and other activities on our website <https://psychology.mtsu.edu/>. This site is especially useful as you continue to think about your academic future and the opportunities that psychology at MTSU has to offer. I encourage you to examine the faculty, their academic specializations, and research interests. You will receive instruction from highly trained scholars, many of whom have achieved national recognition within their respective field of study. The Department of Psychology at MTSU boasts a variety of academic courses and programs that rival the offerings of some of the best universities in the country. Your experience in the Department of Psychology will be as rich and rewarding as you want it to be – faculty routinely involve students in their research, and there are many opportunities for you to work under the supervision of faculty as you perform your own individual readings and research or participate in experiences in applied settings. The Psychology Club and Psi Chi (the international honor society in psychology) also offer students social and leadership opportunities, as well as a variety of enriching experiences outside the classroom. Please feel free to contact me with any questions you might have about our department, academic offerings, and opportunities within our undergraduate psychology program.

Warmest regards,

Nancy J. Stone, Ph.D.
Department Chair
Department of Psychology

I. Goals of the Psychology Program

The undergraduate psychology program at MTSU is designed to serve students who have varied career goals. Thus, the curriculum is arranged with several purposes in mind:

- a. to provide, as part of a liberal arts education, some familiarity with the principles, methods, findings, and theories of psychology and to offer valuable background for students preparing to work in a variety of professions and jobs, such as medicine, law, business, teaching, engineering, mass communications, political science, criminal justice, etc.;
- b. to provide the knowledge and skills necessary for advanced study in psychology at the graduate level;
- c. to provide academic work and technical skills that will prepare students to pursue careers in such facilities as mental hospitals, mental health agencies, schools, community agencies, psychological research laboratories, businesses, industries, etc.

Curriculum is designed to meet the *APA Guidelines for the Undergraduate Major: Version 3.0* adopted August 2023. These goals include:

- (1) Content Knowledge and Applications
- (2) Scientific Inquiry and Critical Thinking
- (3) Values in Psychological Science
- (4) Communication, Psychological Literacy, and Technology Skills
- (5) Personal and Professional Development

II. Advising

The department/academic advisor: All psychology majors are automatically assigned one of three department/academic advisors. These advisors help students with their course plans and answer questions about coursework and degree requirements. They also guide students through a variety of support services that enable students to make a successful and holistic transition into the MTSU and global community. The objective of academic advising is to help students understand university, college, and degree program policies and requirements. Students keep the same department/academic advisor until they graduate.

Department/academic advising (prior to preregistration) is required for new first-year students, new transfer students, and new change of major students. Students can check Pipeline, see page 5 of this handbook, or go to <https://mtsu.edu/cbhsadv/advisors.php> to learn who their advisor is. Advising is strongly recommended every semester for ALL students. **New guidelines regarding financial aid eligibility and degree plans make it especially important that all students see their assigned advisor(s) prior to registration.** Visit <http://mtsu.edu/cbhsadv/index.php> to make an appointment with a department advisor.

The faculty advisor: Effective Fall 2023, a faculty advisor will be assigned to students who (1) have either just completed or are completing the PSY2000 course (this will be part of the course), (2) students who recently changed their major to psychology and already have 60+ hours, OR (3) new transfer

students who already have 60+ hours. Faculty advisors are assigned based on a student's area(s) of interest in psychology. The faculty advisor can address questions related to getting involved in research, career preparation, availability of internships or apprenticeships, course selection, and graduate school preparation. Thus, most students will have both an assigned department/academic advisor and a faculty advisor. Students are encouraged to consult with both advisors, as different advisors serve different purposes and have different areas of expertise. To be assigned a psychology faculty advisor, talk with your department/academic advisor.

III. Declaring a Major in Psychology

To change their major to psychology (i.e., declare a psychology major), students must see a department/academic advisor in the Psychology Department to determine the feasibility of a major change. Visit <http://mtsu.edu/cbhsadv/index.php> to make an appointment with a department advisor.

IV. Registering for Classes

Registration information, including deadlines and a course schedule guide, can be found on the website of the Registrar's Office (<https://www.mtsu.edu/registrar/registration-guide.php>). It is strongly recommended that **all** psychology majors continue to meet with their department advisor and/or their faculty advisor prior to registering for classes each semester to plan a schedule. See the Academic Maps section at the end of this handbook for detailed information about course sequencing and finishing the psychology major coursework in a timely manner.

V. Taking Honors Courses

Honors courses provide smaller class sizes (no more than 15-20 students), a more challenging intellectual environment, and a freer exchange of ideas than larger classes. The department currently offers several honors sections of required core courses.

Because honors courses are smaller than regular courses, students work more closely with their professors, and these professors can write more detailed letters of recommendation. Hence, honors courses can give students an edge in a highly competitive job market. Honors course work is required for graduating from the University Honors College, and completing an honors thesis. Honors course work will look impressive on your resume. Interested students should review the guidelines for admission to and graduation from the Honors College: <https://mtsu.edu/honors/index.php>. A set of FAQs can be found here, as well: <https://mtsu.edu/honors/faq.php>.

VI. Majors Offered

The Psychology Department offers two majors: (1) Psychology; and (2) Industrial-Organizational (I-O) Psychology.

1. The Psychology Major

The Psychology major at MTSU is designed for students primarily interested in a liberal arts education or in a background for other professions. This is a 38-hour major. The required core classes in this major meet the recommendations of the American Psychological Association for best practices in undergraduate education. Electives in psychology and additional courses in the arts, sciences, humanities, and preprofessional curricula should be chosen to correspond with interests and career goals. For example, students interested in law should take relevant courses in clinical psychology, economics, business, criminal justice, and political science. Two minors are required for all students. Students have the **option** of choosing a specialty psychology minor for 1 of their minors, but this is **not** required. Students may not choose two minors that are housed in the Psychology Department (e.g., mental health services & lifespan development). We encourage students to choose minors that complement their career goals and to choose minors and courses that will lead them to be well-rounded citizens.

2. The Industrial-Organizational Psychology Major

Industrial-Organizational Psychology deals with a variety of personnel and organizational issues, such as employee selection, training, job analysis, and employee motivation. This major is designed to (a) prepare students for entry-level positions in personnel departments of business and industries, and (b) provide a background for students wishing to pursue graduate work in Psychology, I-O Psychology, or related fields.

This major consists of 34 hours of required courses (which must be completed with a grade of C- or above in each course) and 12 hours selected from additional psychology courses. A minor in a related field is required. It is strongly recommended that students who are interested in this major consult with an I-O faculty advisor early in their program to discuss an appropriate minor, course sequencing, and internship opportunities.

VII. Minors Offered

The Psychology Department offers a general minor in psychology, as well as four specialty minors.

1. Psychology

The minor in psychology requires 15 semester hours. Course work should include: (1) PSY 1410 General Psychology; (2) 3 additional lower division hours; and (3) at least 6 hours at the upper division level (3000- or 4000-level). A minimum of 6 psychology hours, to include 3 hours of psychology upper division coursework, must be taken at MTSU to satisfy this minor. This minor is not available to Psychology majors.

2. Industrial-Organizational Psychology

The minor in I-O psychology requires 15 semester hours. Students who also are pursuing a B.S. degree in Psychology may select I-O Psychology as 1 of their 2 minors; however, courses may not count toward both the major and minor. A minimum of 6 psychology upper division hours must be taken at MTSU to satisfy this minor.

Required Courses (9 hours):

PSY 3320	Workplace Psychology	3
PSY 4270	Personnel Selection & Placement OR	3
PSY 4330	Industrial-Organizational Training & Dev.	
PSY 4360	Organizational Psychology	3

Elective Courses (Choose 2: 6 hours):

PSY 4270	Personnel Selection and Placement*	3
PSY 4290	Compensation System Design and Administration	3
PSY 4330	Industrial-Organizational Training and Dev*	3
PSY 4340	Human Factors Psychology	3
PSY 4365	People Analytics	3
PSY 4370	Motivation and Work Attitudes	3
PSY 4380	Group Dynamics	3

*If not taken as a required course

Questions about this minor should be directed to Dr. Judy Van Hein at 898-5752 or (judith.vanhein@mtsu.edu).

3. Neuroscience

The Neuroscience minor is a 15-hour minor consisting of 9 hours of required courses and 6 hours of elective hour coursework. This minor is designed to provide a neuroscience background for students planning to pursue advanced degrees in psychology, counseling, biology, education, medical professions, and neuroscience, and for students seeking additional training for jobs in assessment, rehabilitation, and treatment of children and adults with brain damage, brain diseases, and drug rehabilitation. *Courses taken for this minor cannot be used to satisfy requirements for a major or for other minors.* A minimum of 6 psychology upper division hours must be taken at MTSU to satisfy this minor. The advisor for this minor is [Dr. Cyrille Magne](mailto:Cyrille.Magne@mtsu.edu). His contact information is 898-5599 or Cyrille.Magne@mtsu.edu.

Required Courses (9 hours)

PSY 2190 – Introduction to Biopsychology ¹	3
PSY 4240 - Behavioral Neuroscience	3
PSY 4780 - Human Neuropsychology ²	3

Elective Courses (6 hours)

PSY3990 - Research in Psychology (1-3 hours) ³	3
PSY4030 - Psychology of Sensation and Perception ⁴	3
PSY4040 - Introduction to Cognitive Psychology	3
PSY4050 - Applied Psychopharmacology	3
PHIL4550 - Philosophy of the Mind	3
PSY4130 - Lab in Psychology (Sensation & Perception) or	
PSY4140 - Lab in Psychology (Cognitive Psychology)	
BIOL 4560 – Neurobiology ⁵ (4 credits) AND	
BIOL 4561 lab (0 credits)	

¹PSY2190 should be taken prior to the other required and elective courses in the neuroscience minor.

²PSY4240 is a prerequisite for PSY4780.

³Student will need approval from minor advisor for the research topic in PSY3990.

⁴Cannot be taken as an elective if the student's major is Psychology because PSY4030 will be required for the major if PSY4240 is taken for the minor.

⁵Biol1110/1111, Biol1120/1121 and Biol 3250/3251 are prerequisites for Biol4560.

4. Lifespan Development

The Lifespan Development minor is intended for students who want specialized instruction in lifespan and human development issues. This minor is appropriate for students majoring in psychology, health education, nursing, sociology, or social work. The Lifespan Development minor is also a compatible second minor for students who have minors in gerontology, health, sociology, social welfare, women's studies, or health care services. Also, students who are considering medicine (pre-med), a job in the medical profession, or social work as a career would find this minor beneficial.

Three core courses focusing on childhood, adolescence, and adulthood are required. Electives are selected to supplement knowledge of development in one or more areas of the lifespan.

It is recommended that all students (psychology and non-psychology majors) take *PSY 1410: General Psychology* prior to taking courses in this minor. Also, *PSY 2300: Developmental Psychology* should be taken prior to enrolling in any upper division courses in the minor. Under no circumstances may students count the same hours/courses for both a major and minor. All hours for this minor **MUST** be psychology courses. A minimum of 6 psychology upper division hours must be taken at MTSU to satisfy this minor.

Required Coursework: (9 hours):

PSY 4190 Child Development	3
PSY 4210 Adolescent Development	3
PSY 4610 Adult Development and Aging	3

Electives (choose 2: 6 hours)

PSY 2300 Developmental Psychology	3
PSY 3240 Psychological Disorders in Childhood	3
PSY 4440 Social Psychology of Close Relationships	3
PSY 4600 Psychosexual Adjustment	3
PSY 4620 Psychology of Women	3
PSY 4630 Death and Dying	3
PSY 4720 Cross-Cultural Psychology	3

Questions should be directed to James Houston, 898-5641, james.houston@mtsu.edu

5. Mental Health Services

The Mental Health Services minor prepares students for entry-level positions in mental health settings. It is designed for students planning to work in mental health, health care, social service, and other settings where they would deal with mental health issues, including careers such as social work, counseling, medicine, gerontology, health education, and child and family services. It is recommended that all students take PSY1410 before beginning classes for this minor. Fifteen credit hours are required for this minor. A minimum of 6 psychology upper division hours must be taken at MTSU to satisfy this minor.

Required Courses (6 hours)

PSY 3230 Psychological Disorders	3
PSY 4110 Issues & Ethics in Mental Health Services	3

A. Developmental/Diversity Group (3 hours)

PSY 4190 Child Development	3
PSY 4210 Adolescent Development	3
PSY 4600 Psychosexual Adjustment	3
PSY 4610 Adult Development & Aging	3
PSY 4620 Psychology of Women	3

B. Theory & Application Group (6 hours)

PSY 3240 Psychological Disorders in Childhood	3
PSY 3750 Introduction to Clinical Psychology	3
PSY 4260 Introduction to Psychological Testing	3
PSY 4400 Introduction to Applied Behavior Analysis	3
PSY 4470 Theories of Counseling	3
PSY 4630 Death & Dying	3
PSY 4650 Health Psychology	3

Other Recommended Courses

PSY 4740-4750 Apprenticeship: Developmental or Pre-Clinical	1-3
--	-----

Questions should be directed to Dr. Ciera Schoonover, 898-2584, ciera.schoonover@mtsu.edu

VIII. MTSU Graduation Requirements

To graduate with a psychology major from MTSU, 120 semester hours are required, which includes 41 hours of True Blue Core and 36 semester hours of upper division credit. For transfer students, a minimum of 50 semester hours of senior college credit is required for a degree from MTSU. ***A minimum of 9 psychology upper division hours from the core set of required courses and a minimum of 6 other psychology hours must be taken at MTSU.*** A minimum major G.P.A. of 2.0 is required for graduation. Students should refer to the undergraduate degree requirements posted in the online catalog for a complete list of graduation requirements:

<http://catalog.mtsu.edu/content.php?catoid=30&navoid=6573>

It is imperative that incoming transfer students see a department academic advisor to ensure that adequate credit is being given for past coursework. Lower division hours taken at another college or university cannot be substituted for upper division hours required in the major or minor.

IX. Student Organizations and Honor Societies:

At MTSU, Psi Chi and Psychology Club have shared events. A student can be a member of one without being a member of the other.

1. Psychology Club

This club is open to all psychology students; there are NO REQUIREMENTS for membership in the Psychology Club, other than an interest in and enthusiasm for the field of Psychology. We encourage all Psychology majors and minors to join. To join, complete an interest form on MyMT and come to one of our meetings or sponsored activities. More information can be found on the Student Organizations page of the Psychology Department website.

2. PSI CHI National Honor Society:

Psi Chi is the International Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership in **Psi Chi** is open to both undergraduate and graduate MTSU psychology students. To be eligible for membership, students must meet the minimum qualifications. Psi Chi is a member of the Association of College Honor Societies and is an affiliate of the American Psychological Association (APA) and the Association for Psychological Science (APS). Psi Chi's sister honor society is Psi Beta, the national honor society in psychology for community and junior colleges. Inductions to Psi Chi are **typically held once in the spring and fall semesters**.

As an undergraduate you qualify if:

- You are majoring or minoring in psychology.
- You have completed at least 9 semester credit hours of psychology coursework.

- You have completed at least 3 semesters or equivalent of full-time college coursework
- You have an established GPA that is at least 3.3 on a 4-point scale.
- You have a minimum 3.0 GPA average for psychology courses

To join, fill out a Membership Application on the Psi Chi website (<https://memberapp.psichi.org/applicationformmember.aspx>), and pay the lifetime membership fee. A Psi Chi advisor at MTSU will contact you regarding your application. More information is available on the Psychology Department website.

X. PROGRAM CURRICULUM (2025-2026)

1. MAJOR: PSYCHOLOGY

General Education Requirements

FOUNDATIONAL SKILLS

Students choose one course (i.e., 3 credit hours) from each of the four Foundational Skills. View the list of approved courses for these categories: [TBC Approved Courses](#)

1. **Written Communication (WC)** (3 hours): ENGL 1010
2. **Information Literacy (Info Lit)** (3 hours): ENGL 1020
3. **Non-written Communication (NWC)** (3 hours): COMM2200 (Recommended)
4. **Quantitative Literacy (Quant Lit)** (3 hours): MATH 1710, MATH 1730, or MATH 1530

KNOWLEDGE DOMAINS

Students must choose courses from each of the four knowledge domains. View the list of approved courses for these categories here: [TBC Approved Courses](#)

1. **Human Society and Social Relationships (HSSR) (6 hours)**

Students choose two courses (i.e. 6 credit hours) in this category. At least one course must be selected from the Discovery category and the second course can be either Discovery or Explorations.

Discovery in Social and Behavioral Sciences (3 to 6 hours): PSY1410 (required)

Explorations in HSSR (0 to 3 hours)

2. **Scientific Literacy (Sci Lit) (8 hours)**

Students choose two courses (i.e. 8 credit hours) in this category. At least one course must be selected from the Discovery category and the second course can be either Discovery or Explorations.

Discovery in Natural Sciences (4-8 hours): BIOL 1030/1031 (Recommended)

Explorations in Sci Lit (0-4 hours)

3. **Creativity & Cultural Expression (CCE) (9 hours)**

Students choose three courses (i.e. 9 credit hours) in this category. At least one course must be a literature course (ENGL 2020, ENGL 2030, HUM 2610) one course must be selected from the Discovery category, and the third course can be either Discovery or Explorations.

Literature (3 hours)

Discovery in Fine Arts/Humanities (3-6 hours): PHIL 1030 (recommended)

Explorations in CCE (0-3 hours):

4. History & Civic Learning (HCL) (6 hours)

Students choose two courses (i.e. 6 credit hours) in this category. At least one course must be selected from the Discovery category and the second course can be either Discovery or Explorations.

Discovery in History (3-6 hours): Note: HIST 2010, 2020, AND 2030 meet the 6-hour statutory requirement for American history.

Explorations in HCL (0-3 hours)

Required Courses (38 hours)

Students must earn a C- or better in all Core Courses.

Core Courses (24 hours)

- | | |
|---------|---|
| Ύ 1410 | General Psychology |
| Ύ 2000 | Seminar on Careers in Psychology |
| Ύ 2210 | Psychology of Social Behavior |
| Ύ 2300 | Developmental Psychology |
| Ύ 3020* | Basic Statistics for Behavioral Science |
| Ύ 3070 | Research Methods |
| Ύ 3071 | Research Methods Lab |
| Ύ 3230 | Psychological Disorders OR
PSY3590 Personality |
| Ύ 4030 | Psychology of Sensation and Perception OR
PSY4240 Behavioral Neuroscience |
| Ύ 4040 | Introduction to Cognitive Psychology OR
PSY 4480 Learning Theories |

*PSY3020 Basic Statistics is a prerequisite for PSY3070: Research Methods. Students must take their general education math course before enrolling in PSY3020: Basic Statistics.

Psychology electives (12 hours; 9 credit hours must be 3000-4000 level):

Minors (Two minors are required. Students may choose a psychology minor as one of their 2 minors, but this is not required. One minor must be from a department other than Psychology. It is recommended that students carefully choose minors to support their career plans.)

Minor I: _____	Minor II: _____
_____	_____
_____	_____
_____	_____

To graduate, a total of 120 hours is required, of which 36 must be upper division, and 50 must be senior college. A minimum of 9 psychology upper division hours from the core set of required courses and a minimum of 6 other psychology hours must be taken at MTSU.

2. MAJOR: INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY

General Education Requirements

FOUNDATIONAL SKILLS

Students choose one course (i.e., 3 credit hours) from each of the four Foundational Skills. View the list of approved courses for these categories: [TBC Approved Courses](#)

1. **Written Communication (WC)** (3 hours): ENGL 1010
2. **Information Literacy (Info Lit)** (3 hours): ENGL 1020
3. **Non-written Communication (NWC)** (3 hours): COMM2200 (Recommended)
4. **Quantitative Literacy (Quant Lit)** (3 hours): MATH 1710, MATH 1730, or MATH 1530

KNOWLEDGE DOMAINS

Students must choose courses from each of the four knowledge domains. View the list of approved courses for these categories here: [TBC Approved Courses](#)

1. **Human Society and Social Relationships (HSSR)** (6 hours)

Students choose two courses (i.e. 6 credit hours) in this category. At least one course must be selected from the Discovery category and the second course can be either Discovery or Explorations.

Discovery in Social and Behavioral Sciences (3 to 6 hours): PSY1410 (required)

Explorations in HSSR (0 to 3 hours)

2. **Scientific Literacy (Sci Lit)** (8 hours)

Students choose two courses (i.e. 8 credit hours) in this category. At least one course must be selected from the Discovery category and the second course can be either Discovery or Explorations.

Discovery in Natural Sciences (4-8 hours): BIOL 1030/1031 (Recommended)

Explorations in Sci Lit (0-4 hours)

3. **Creativity & Cultural Expression (CCE)** (9 hours)

Students choose three courses (i.e. 9 credit hours) in this category. At least one course must be a literature course (ENGL 2020, ENGL 2030, HUM 2610) one course must be selected from the Discovery category, and the third course can be either Discovery or Explorations.

Literature (3 hours)

Discovery in Fine Arts/Humanities (3-6 hours): PHIL 1030 (recommended)

Explorations in CCE (0-3 hours):

4. **History & Civic Learning (HCL)** (6 hours)

Students choose two courses (i.e. 6 credit hours) in this category. At least one course must be selected from the Discovery category and the second course can be either Discovery or Explorations.

Discovery in History (3-6 hours): Note: HIST 2010, 2020, AND 2030 meet the 6-hour statutory requirement for American history.

Explorations in HCL (0-3 hours)

MAJOR REQUIREMENTS: I-O Psychology (Students must earn a C- or better in all required Psychology and I-O classes)

Psychology Foundation Courses

Required Courses (22 hours)

Y PSY 1410	General Psychology
Y PSY 2210	Psychology of Social Behavior
Y PSY 3020*	Basic Statistics for Behavioral Science
Y PSY 3070	Research Methods
Y PSY 3071	Research Methods Lab
Y PSY 4260	Intro. to Psychological Testing
Y PSY 3230	Psychological Disorders OR
PSY 3590	Personality
Y PSY 4040	Introduction to Cognitive Psychology OR
PSY4480	Learning Theories

I-O Psychology Courses
